

Diazinon 60% EC

Composition:

Diazinon 60% - Excipients to 100% (emulsifiable concentrate).

Indications:

Emulsifiable concentrate for the prevention and treatment of ectoparasitic infections on cattle, sheep, goats, camels, horses and other domestic animals.

Effective in the control of ticks, lice, fleas, flies, etc even when used in very low concentrations.

Application:

To obtain a ready for use emulsion: add 0.25 litre of DIAZINON 60% to 1000 up to 2000 l of water. Apply by hand washing, hand spraying or knapsack spraying, dipping or pour on treatment.

Precautions:

Keep out of reach of children. Keep away from foodstuffs and drinking water. Avoid contact with eyes. Wash hands thoroughly after use.

DIAZINON is completely harmless if used correctly. If though poisoning should occur, an intramuscular injection of 1% atropine sulphate is recommended.

DIAZINON is toxic to bees and fish. Do not spoil in rivers or sinks. DIAZINON is inflammable!

Conservation:

Store dry, dark and cool (below 20°C), in original unopened packing.

Presentation:

Bottles of 1 l.

Bulk drums of 25 or 200 l.
